Career Objective

I am a fourth-year physics student, seeking a graduate project with a real-world problem at its core. I am interested in exploring opportunities in both computational/theoretical physics and in experiment, alongside other subjects where physics is key!

Skills

- Critical thinking and problem-solving, developed through both research and homework problems in physics, mathematics, and programming.
- Extensive experience working with data in Python, including both numerical modelling and processing large quantities of experimental data into a database.
- Focused in both collaborative and independent situations.
- Exceptional written and oral communication skills as recognized by supervisors and instructors.
- Scientific documentation for both computation and in the lab.

Education

Bachelor of Science, Honours Physics – University of Guelph 2018 - Present
Guelph, ON

- 92 GPA (“A+” Letter Grade)
- Exceptional understanding of Physics and Math concepts extending beyond the Third-Year level.
- Continuing to develop excellent physics, mathematics, programming, laboratory, communication, and documentation skills.

Research & Work Experience

Departmental Summer Research Award – University of Guelph

Kilonova Modelling with Python – Prof. Daniel Siegel 2021 (Current)

- Implemented numerical models in Python with the goal of predicting multi-component kilonova emission based on output from binary neutron star merger simulations.
- Extending one-dimensional kilonova model to 2-D (and possibly 3-D) to account for observer orientation effects.

NSERC Undergraduate Summer Research Assistantship – University of Guelph

Infrared Spectroscopy of PEX-a Pipes – Prof. John Dutcher 2020-2021

- Independently planned, built, documented and maintained a Python script for processing over 14,000 infrared spectra on PEX pipes alongside categorical information on the scans. Group is using database to streamline new analyses and visualizations, and it has been used to produce some interesting results.
- Communicated with group effectively, including through group meeting presentations, to determine project requirements and develop effective solutions. Recognized by supervisor & other group members for excellent clarity and attention to detail when presenting.

Strom's Farm and Bakery – Guelph, ON

Field Manager 2016 - 2019

Corn Picker 2014 - 2015

- Collaborated with two teams to decide corn harvest schedule and maintain quality, competitive for Ontario-best. Documented corn plot flavour, yield, and abnormalities.
- Accomplished property upkeep and large projects autonomously and in teams.
- Operated tractors with farm implements, including understanding the use and exchange of hydraulic components. Troubleshoot problems with farm equipment and took necessary measures for their repair or removal.

Chickadee Christmas Trees – Cambridge, ON

Customer Service Representative & Field Labourer 2012 - 2019

- Provided excellent customer service as a part of a team.
- Worked independently and collaboratively to accomplish farm upkeep tasks.

Tutoring – Guelph, ON 2018 - 2019

- Three years' experience communicating first-year and high-school physics, math and chemistry concepts at an appropriate level.

Awards and Scholarships

- **James L. Hunt Scholarship in Physics – 2020**
 - Awarded to a third-year physics major who has completed a minimum of 10 credits and who has the highest cumulative average over 80%
- **Copernicus Scholarship in Physics – 2020**
 - Awarded to the three students achieving the highest combined average in PHYS*2330 (Electricity and Magnetism I) and PHYS*2240 (Thermal Physics) in the previous academic semester.
- **College of Biological Sciences Dean's Scholarship – 2020**
 - Awarded to those students demonstrating a high level of academic achievement. At the time that I was considered for this award, I was enrolled in the College of Biological Sciences.
- **University of Guelph Retiree's Association Scholarship – 2020**
 - Awarded to a student with the highest average registered in a degree program who is a child, grand child, or great grand child of a retiree of the University of Guelph.
- **Puslinch Optimist's Club Scholarship – 2018-2019**
 - Awarded to a citizen of Puslinch township entering university in the preceding year, who has shown academic success and involvement in the community.
- **University of Guelph Entrance Scholarship – 2018**
 - Awarded for joining the University with an average greater than 90%.

Volunteer Experience

VP External – U of Guelph Physics and Astronomy Club 2020-Present

- Attending CEPS Student Council Executive Committee meetings and assisting with event planning for undergraduate students and outreach. Guest Host on PAC podcast Gryphons and Gluons.

Student Representative - Undergraduate Physics Curriculum Committee 2019 - Present

- Gathering, interpreting and communicating student feedback on courses and program structure in order to improve future curriculum.

Volunteer Farming - WWOOF France January - March 2018

- Assisted with labour on four organic farms.
- Learned about sustainable agricultural practices.
